## **APPENDIX TWO**

### **ARRANGEMENTS AND RESPONSIBILITIES FOR CARRYING OUT THE HEALTH AND SAFETY POLICY**

#### **GENERAL ARRANGEMENTS (COUNCIL PREMISES)**

- Any accidents, injuries or dangerous occurrences must be recorded in the accident book. Thereafter all such incidents should be brought to the attention of the Council. In the event of a serious injury or dangerous occurrence, the Chairman or in their absence the Vice-Chairman should be informed immediately.
- A first aid box is located in the council building and periodic checks will be carried out to ensure the contents are adequately maintained.
- The accident books are located with the first aid boxes.
- The Council requires contractors working in Council premises to supply risk assessments, written method statements and Safe Systems of Work prior to starting any major works on behalf of the Council.

#### **SMOKING**

- This policy has been developed to protect all employees, service users, customers and visitors from exposure to second-hand smoke and to ensure compliance with laws that ban smoking in public places (including workplaces).
- Smoking is prohibited throughout the entire workplace with no exceptions. This includes Council vehicles. This policy applies to all employees, consultants, customers and visitors.
- Overall responsibility for policy implementation and review rests with the Clerk. All staff are obliged to adhere to and to facilitate the implementation of the policy.
- The Clerk will ensure that all existing employees, consultants and contractors are aware of the policy and of their role in the implementation and monitoring of the policy. They will also ensure that all new personnel are given a copy of the policy on recruitment or induction.

#### **FIRE**

- In general, employees and users should seek to ensure good standards of housekeeping at all times. A clean and tidy workplace is less likely to be a source of fire. Any act or omission which they believe may constitute a fire risk should be immediately notified to the Caretakers, who will take the appropriate action.
- All potential fire hazards will be identified and the risks assessed and reduced to an acceptable level.
- Firefighting equipment will be provided and emergency lighting and fire alarm points fitted as appropriate, following a fire risk assessment. The fire alarm will be tested at weekly intervals by activating an alarm point in rotation, such as to test every alarm point over a set period of time.
- Fire marshalling areas will be identified and located in areas beyond any danger from fire. Employees and users will be made aware of where they have to report in case of fire. Fire alarms will be activated periodically, without prior notice.
- Details of the Council's fire/emergency procedures and exit and assembly points, are displayed on notice boards around the Council's premises. Employees and users must familiarise themselves with the Council's emergency procedures to minimise the dangers caused by fire.
- Employees and users must ensure that they are aware of the nearest fire exit, and its alternative, for emergency use.

- Regular fire drills will be held to ensure the Council's fire procedures are effective and to ensure employees and users are familiar with them. These drills are important and must be taken seriously.

## **REMEMBER:**

On discovering a fire:

- Raise the fire alarm;
- Alert other people within your immediate vicinity; and
- Do not attempt to tackle the fire unless you have been trained or you feel competent to do so

On hearing the fire alarm

- Do not delay - evacuate the premises immediately;
- Do not stop to collect personal possessions;
- Remain calm and proceed in an orderly manner;

Under no circumstances must you put yourself or others at risk in a fire situation.
